

Ensuring safe **data delivery**

Your Exclusive Invitation

Data proliferation and the impossibility of Control Recent breaches & hacks - incident handling!

The intention of the update is to give CNS customers and trusted parties an exclusive insight to recent findings, developments, opinions & techniques from CNS' Security Assessment and Compliance teams. Our experts will talk candidly to you about what they know are key concerns within business, and what they see the compliance and security issues to be over the forthcoming years. CNS will also be offering their thoughts and views on recent IT security news and developments from within the industry. We invite you to join our Security Chapter and hear how, in a difficult climate, being informed can make the difference!

This quarter's CNS Security Chapter is your chance to hear directly from the CNS Consultant as they discuss a new data centric approach to information security and what to do if you're the next victim of a targeted attack.

When: Tuesday 28th June 2011

Where: The Little Ship Club, Bell Wharf Lane,
Upper Thames Street, London, EC4R 3TB www.littleshipclub.co.uk

Time: 0830 to 1000hrs

About CNS

Convergent Network Solutions Ltd is a highly accredited London based Security Assessor and Network Security Specialist. Our goal is to create a truly pragmatic approach to security for all of our customers. We specialise in understanding the security market, compliance requirements and our customers’ specific internal policies and match them with services and solutions that fit their need. This is all underpinned with a high level of service and support to our customers. CNS was established in 1999 in response to market demand for a highly skilled security and networking consultancy in the heart of the city. CNS has grown rapidly since this time, both in company size, the depth and breadth of services offered and reputation for providing exemplary service. The company is majority owned by the principle directors.
