

## Ensuring safe **data delivery**

### Overview

CNS have been providing Security Assessment Services to private and public customers alike for over a decade. Whether FTSE 100 or SME CNS provide pragmatic advice and services, individually tailored to each customer, to ensure that an organisation's security is enhanced and assets are protected.

### Why use us?

We are committed to consultant led, quality security testing.

We have a vast body of experience, plus testimonials, case studies & references.

We are CESG Green CHECK accredited (for 9 years), PCI DSS QSA & CLAS accredited and all consultants are individually (SC) security cleared.

Our experience covers many industry sectors, including finance, public sector, police, media & travel.

Our reports are written by a person, not a computer, and accompanied by an onsite presentation and Q&A.

We work with FTSE100 customers, to mid-corporates and SMEs.

We have the experience and flexibility to deliver the right testing solution for you, not the most convenient one for us.

### About CNS

Convergent Network Solutions Ltd was established in 1999 in response to market demand for a highly skilled security and networking consultancy in the heart of the city. CNS has grown rapidly since this time, both in company size, the depth and breadth of services offered and reputation for providing exemplary service. The company is majority owned by the principle directors.
